1. Introduction

This technical manual is intended exclusively for GymNomads **System Administrators** .

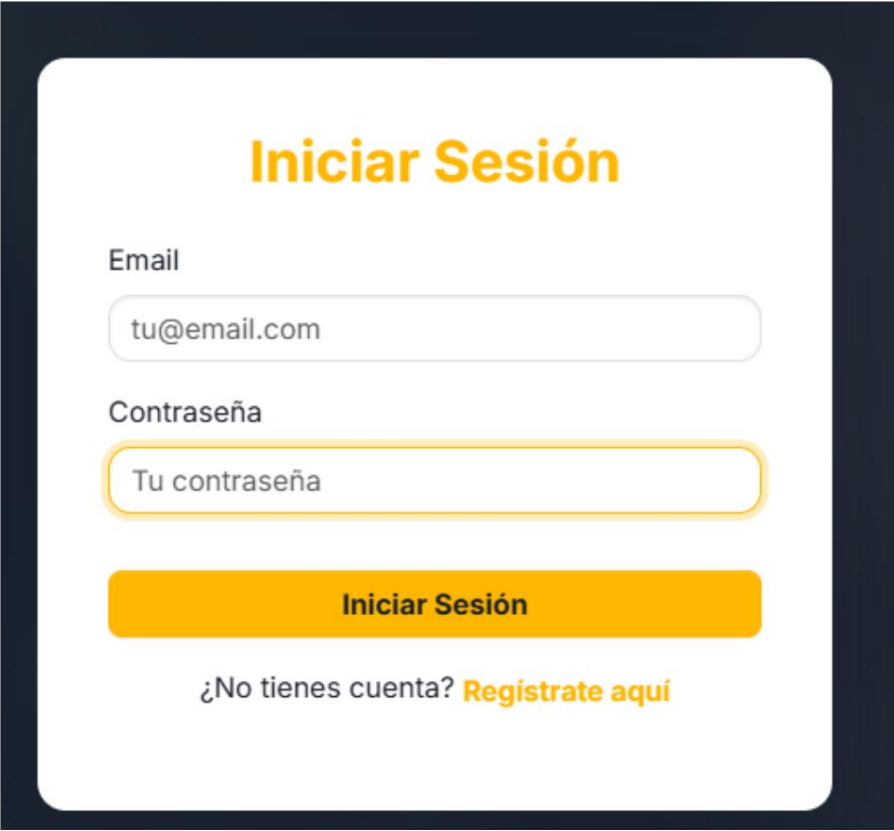

The Administration Panel grants full control over the platform, allowing management of the gym lifecycle (registrations, cancellations, suspensions), monitoring of all registered users, and access to global metrics.
performance.

2. Access and Security

Access to the administration panel is via the standard login, but requires credentials with elevated privileges (role: 'admin').

Security Note: For system integrity reasons, the Administrator **cannot change their own password** from the panel. If you require a change of credentials or access recovery, you must contact the **Web Technical Maintenance** team directly so they can perform the operation securely in the database.

3. Comprehensive Gym Management

This is the administrator's main function: to keep the network up to date associated centers.

3.1. Registration of New Centers

To add a gym to the network, you must complete a one-time form that creates simultaneously:

1. The Gym's information sheet (Name, Address).
2. The account of the associated Manager (Name, Surname and Corporate Email).

Note: When creating the gym, generic images are assigned by default. It will be the Manager's responsibility to customize them later from their own panel.

3.2. Structural Data Editing

From the gym list, the "Edit" button allows you to modify critical data that Managers cannot touch:

- **GPS Location:** You must manually enter the Latitude and Longitude exact for the map to work correctly.
- **Hours:** Definition of opening and closing times.
- **Contact Information:** Physical address and city.

Añadir Nuevo Gimnasio

Importante: Al crear el gimnasio, automáticamente se creará un usuario manager con los datos de la persona responsable. El email del manager será generado automáticamente a partir del nombre del gimnasio (ejemplo: `nombregimnasio@gymnomads.com`).

Datos del Gimnasio

Nombre del Gimnasio: *

Dirección: *

Ciudad: *

Latitud: *

Debe estar entre -90 y 90

Longitud: *

Debe estar entre -180 y 180

Horario: (opcional)

Introduce el horario de apertura del gimnasio. Los saltos de línea se respetarán.

Manager Responsable

EMAIL DE ACCESO (AUTOGENERADO)
nombregimnasio@gymnomads.com

Nombre: *

Ej: Pablo

Nombre real de la persona responsable del gimnasio

Apellidos: *

Ej: Bellón Ruibal

Teléfono(opcional):

user@gymnomads.com

Contraseña: *

Esta contraseña será utilizada por el manager para acceder al sistema

Confirmar Contraseña: *

Repite la contraseña

Crear Gimnasio

i Nota: Las imágenes del gimnasio (logo e imagen principal) podrán ser añadidas por el manager desde la página de edición una vez creado el gimnasio.

3.3. Special States: Suspension and Deletion

Each gym card has status controls:

- **Suspend:** Temporarily deactivates the gym. It will no longer appear in public searches, but its data will not be deleted. Useful for non-payment or reforms.
- **Delete:** Marks the gym as deleted.
Important : The system maintains historical records. Past visits to this gym will still appear in reports, but will be marked (crossed out in red) to indicate that the center is no longer used.
It is active.

4. Manager Management

In the "Managers" section, you have a tabular view of all registered managers.

Capabilities:

- **Filtering:** You can search by manager's name or by the gym that manages.
- **Editing:** By clicking on a row, you can correct the First Name, Last Name, and Manager's phone number.
- **Restriction:** The email address (gymname@gymnomads.dev) acts as a link ID and is not modifiable.

Gestión de Managers

Visualiza, edita y filtra todos los gerentes registrados en la plataforma.

Buscar Manager

Buscar Manager o Gimnasio

ⓘ Haz click en una fila para ver y editar detalles (incluido email y teléfono). Los managers no se pueden eliminar directamente.

Manager ↑	Gimnasio	Ciudad
AA Antonio Álvarez	N No Logo Gym	Murcia
CG Carlos Gómez	 Spartan Gym	Madrid
 Carmen Muñoz	 Global Gym	Alicante
 David Jiménez	 Power Zone	Palma
IR Isabel Romero	 Old School Gym	Vigo
 Javier Martínez	 Olympus Center	Valencia
 Laura Fernández	 Hercules Fitness	Barcelona
 Miguel Sánchez	 Iron House	Bilbao
 Pablo Moreno	 Nomad Strength	Santiago
 Sofía Díaz	 Urban Fit	Zaragoza

5. User Supervision

The "Users" section allows you to control the database of members (athletes).

5.1. Advanced Search and Filtering

The panel offers powerful filters to locate specific users:

- **By User Name or Email.**
- **By Home Gym (including gyms that have already been eliminated).**
- **By Gym City.**

5.2. Account Deletion

As administrator, you have the power to remove any user from the system if they violate the rules or request to be removed, ensuring compliance with data protection.

6. Global Visit Monitoring

The "**Visits**" section offers the most complete view of the platform's activity.

6.1. Platform Statistics

The top "**Total Visits**" marker opens a panel with metrics detailed:

- Total historical visits.
- Visits made **today**.
- Accumulated visits in the **current month**.

6.2. Full History and Special Filters

The visitor log records every access. You can refine the information by filtering by:

- **City or Gym Name.**
- **Gym Status:** Allows you to specifically filter the visits made to **"Gyms Removed"** for historical audits.

By clicking on a visit, you will see the full details of the journey: **User + Origin Gym y Destination Gym.**
