5. Frequently Asked Questions (FAQ)

Here you have answers to the most common questions from our Nomads:

Q: Can I use GymNomads to train at another gym of my own? city?

A: No. The platform is designed exclusively for travelers and commuters. If the system detects that the gym you want to visit is in the same city as your home gym, it won't allow you to generate the pass.

Q: What do I do if my battery dies right before I go in?

A: Prevention is better than cure! If you know your battery is running low, you can print your pass at home before you leave. The website is set up to print only the card with the QR code, clearly and cleanly.

Q: When will my 10 monthly visits restart?

A: The counter automatically resets to zero on the 1st of each month. Remember that unused visits do not carry over to the next month.

Q: I made a mistake when writing my email address, can I change it?

A: Not directly. Your email is your unique identifier in the system and, for security reasons, it cannot be changed from your profile. If you need to change it, you will have to contact your gym.

Q: Do I need to book a time in advance?

A: You don't need to book through the app. You just need to generate your QR code and show up during the gym's opening hours. However, we recommend checking the gym's listing to confirm their opening hours before you go.

6. Everything is ready for your trip!
